Html-

```html
<!DOCTYPE html>
<html lang="en">
<head>
    <meta charset="UTF-8">
    <meta name="viewport" content="width=device-width, initial-scale=1.0">
    <title>Shopping List</title>
</head>
<body>
    <h1>Shopping List</h1>
    <input type="text" id="itemInput" placeholder="Add item">
    <button onclick="addItem()">Add</button>
    <ul id="itemList"></ul>

    <script src="script.js"></script>
</body>
</html>
```

Javascript-

```javascript
const bgImage = document.getElementById('bg-image');
const loginForm = document.querySelector('.login-form');
const loginStatus = document.getElementById('login-status');

// Add an event listener for the submit event on the login form
loginForm.addEventListener('submit', (event) => {
  event.preventDefault();

  // Get the username and password from the form
  const username = document.getElementById('username').value;
  const password = document.getElementById('password').value;

  // Check if the username and password are correct
  if (username === 'admin' && password === 'password') {
    // Display a success message
    loginStatus.innerHTML = 'Login successful!';
    loginStatus.style.color = 'green';
    loginStatus.style.display = 'block';

    // Redirect to the next page after 2 seconds
    setTimeout(() => {
      window.location.href = 'www.google.com';
    }, 2000);
  } else {
```

```
    // Display a failure message
    loginStatus.innerHTML = 'Login failed!';
    loginStatus.style.color = 'red';
    loginStatus.style.display = 'block';
  }
});
```
